THE FRONIUS SERVICE PACKAGES IN DETAIL

FRONIUS SERVICE BASIC

/ With Fronius Service Basic, you opt for an extension of the standard manufacturer's warranty. You can extend the warranty period to as much as 20 years. The special feature and at the same time innovation in Fronius Service Basic is the ability to choose a flexible term a year at a time.

FRONIUS SERVICE COMFORT

/ With Fronius Service Comfort, we add a comprehensive maintenance package to the service on offer, which is provided by Fronius engineers. This includes annual checks and maintenance work such as filter cleaning, safety checks and software tests. You can choose the length of the term yourself.

FRONIUS SERVICE UPTIME

/ The Fronius Service Uptime package guarantees you 99% availability. What this means is that if your inverter fails, Fronius will pay you compensation at a defined rate. So in the unlikely event of an inverter failure, the downtime is paid for. Annual maintenance of the PV system by Fronius engineers is included in this package.

WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS OF POSSIBILITY.

/ Whether welding technology, photovoltaics or battery charging technology – our goal is clearly defined: to be the innovation leader. With around 3,300 employees worldwide, we shift the limits of what's possible - our record of over 900 granted patents is testimony to this. While others progress step by step, we innovate in leaps and bounds. Just as we've always done. The responsible use of our resources forms the basis of our corporate policy.
